COSMETIC, IMPLANT & RESTORATIVE FAMILY DENTISTRY

Fall 2022

FROM THE DENTIST...

Dear Patients and Friends,

I am amazed that at the writing of this newsletter we find ourselves 6 months removed from Dr. Davis and Cathy's retirement and our week of open house to "show them the love". Time continues to move at an ever-increasing pace it seems. Thank you to all of you that I have had the pleasure to meet since joining the practice at the

beginning of the year. Shannon and I could not have envisioned a warmer welcome than we have received from all of you! (or maybe I should say All Y'all!)

At the heart of our vision for practicing dentistry is the desire to provide exceptional oral health care in the context of a genuine relationship. Our hope with newsletters like this is that we strike an effective balance in providing both helpful oral health care topics and interesting updates on team members both past and present.

I will end my portion of the newsletter with two final thoughts;

1. The first is my hope to keep much of the same feel and manner in the office that our long-time patients have grown accustomed to. My earnest desire in taking over the practice from Dr. Davis is to remain committed to the same vision he and Cathy had of providing exceptional dental care outside of infringement from dental insurance dictates and the pressure to corporatize dental care delivery. We remain committed to focusing on the dentist-patient relationship in a family practice setting rather than whether our treatment recommendations fall into allowable benefits. In my 20 years of practicing dentistry there has been one constant. Dental insurance benefits have consistently gotten worse at the expense of your care. The Davis' and I agree that allowing insurance to dictate the terms of treatment saves the insurance company a lot of money, and while saving you some money in the short term eventually leads to needing much costlier care that benefits don't cover regardless of whether or not you are "in their network".

2. My second thought is of change. While Dr. Davis and Cathy were purposefully slowing down in their last years of working and not actively seeking new patients, I would be thrilled to meet more new patients just like you. We are absolutely accepting new patients and would love to provide the same level of care and relationship to family or friends that you know are looking for a dental office to call home. If you feel comfortable and have enjoyed your experience at our practice, please do let others know!

With gratitude,
Dr. Egger

Showing Dr. Davis and Cathy "the love" in February was perfect! Not only did we all enjoy treats all week long, but it proved to be the perfect format for the Davis's to connect with patients in a comfortable setting that wasn't too stressful or rushed.

Dr. Egger and Shannon hosted a small gathering made up of past and present team members, and some family members of the Davis clan at Del Frisco's in March - lots of laughs and special memories were shared!

And now we find ourselves saying goodbye to one HOT summer! We hope you have had a great summer break, and we look forward to hearing about it at your next visit!"
